

## Best -Practice 2022-23 Session

### Best -Practice 1

**Title:** Re-Structuring the College -website

**Context:**

Nurturing right to information of various stakeholders i.e., Government , Parents, other Colleges - Community , Students and all the netizens.

**Practice:**

College is located in remote rural area . Students find themselves unable to come everyday to the college due to lack of means of transportation and economic affordability. Hence to provide accurate information about the syllabi and various events which have been organized and to be organized by the college ; an E-Platform called “Website” was restructured and populated putting all the budgetary constraints aside.

**Outcome:**

Website “ [www.gpgcsyalde.ac.in](http://www.gpgcsyalde.ac.in)” came into effective operation in February 2022. Dr. D.C. Pant , Principal of the college; took special initiatives in this regard. Although students are not well- versed in such kind of internet practices ; even then they are motivated to access information about syllabus of their subjects , some E- Lectures related to their domain of knowledge.

Image gallery section is highly organized and any of the stakeholders from Government can have the view of on- going activities being organized in the college. Video Section gives live information of the particular event which shows no data massaging have been done .

College New website launched

## Best -Practice No. 2

**Title:** Implementation of the New Education Policy 2020

**Context :**

Education must not be static and it should be ever evolving and so is the policy of imparting Higher -education.

**Practice:**

Session 2022-23 remained peculiar from the point of view of implementation and beginning of this new structure of higher education . Students entering from Inter - colleges were quite unaware of these changes.

Hence , a power point presentation was given to them ;elaboreating each and every step of change regarding the curricula . Complete information was given about Certificate course , Diploma Course , Degree Course and Masters' program. While speaking on the issue of NEP their vision was enlarged about changes made in NEP. How the introduction of Vocational and Co-Curricular courses can be adding values to their employment -potential.

**Outcome:**

Although, the implementation was done still lot has to be done. Faculty members were finding unable to cope up with the wide number of papers they were supposed to teach. Faculty is too short of requirements. Unavailibilty of books on new courses is adding miseries to the knowledge imparting mechanism. As far as admission process is concerned system has improved a lot. Students have been advised to learn through video lectures available on Uttarakhand Tele Education Network and explore reading material through the internet .
