

Institutional Distinctiveness (2022-23)

Title:

A Lecture Series on G:20 Summit

Context:

In order of G: 20 summit which was being organized in November 2022 , a nation -wide campaign was launched to celebrate such auspicious occasion for which our Country was chosen to host the summit. Each and every department of All the states were asked to organize such kind of event to explore the issues which are haunting the Nation's development.

Practice:

To put the above said objective into practice “**A lecture Series on G:20 : Opportunities and Challenges**” was organized from 21 March to 25 March 2023; covering various issues i.e. Artificial -Intelligence , Women -Empowerment , Climate -Change , One Nation- One Earth - One Planet , Origin of G: 20 and Financial Issues , E-Initiatives in Higher Education and Distance -Education and Self-Reliant India were covered by the college teachers , which was truly awesome and wonderful presentation by all . Most of them were having mere 4-5 years teaching experience.

Outcome:

At the end of the lecture series ‘**A Poster and Slogan Competition**’ was organized on the theme of “ **Organic -Farming**” and “**Climate Change - Dimensions and Consequences**” among the graduate- level students. Their articulation on the charts were exhibiting it clearly that they have well grasped the concepts.

Artificial Intelligence and G 20

G20 presidency is India's chance to fix power imbalances in artificial intelligence adoption
Under the guiding philosophy for India's presidency of G20, Vasudhaiva Kutumbkam (One Earth, One Family, and One Future), the CAG has proposed the collaboration of SAI20 Engagement Group on two priority areas — Blue Economy and Responsible Artificial Intelligence (AI).
